

# Missouri Market Development Program's

## Recycled Products Directory

Last Updated: January 2009

# Introduction

This directory was developed to help consumers locate vendors of recycled-content products. Staff from the Environmental Improvement and Energy Resources Authority (EI ERA) Missouri Market Development Program compiled the information included in the Missouri Recycled Products Directory. This publication is not an endorsement for any product, its availability, price or quality, but simply a guide to some of the recycled products available. The companies listed in red are Missouri based companies.

This Directory does not include all recycled products that are offered by your local retailer. There are many more vendors of recycled products than those listed here. If you are a recycled product vendor and would like to be listed, that is saved as a separate file on your CD titled “add your company.” There is no charge for this listing.

## The Missouri Market Development Program

The Missouri Market Development Program was created to promote the development of markets for recovered materials and recycled products in Missouri. We do this by providing financial incentives, technical assistance, consulting and informational services to businesses, governments and other organizations. If you need more information or have questions, please call us at (573) 526-5555.

### Financial Assistance

The program’s financial assistance is targeted toward developing and expanding manufacturing capacity in the state by assisting businesses with the purchase of equipment needed to enable manufacturing facilities to use recovered materials.

Any individual, private business, non-profit organization or public institution operating or proposing to operate in Missouri is eligible to apply. Eligible projects include those resulting in: The final processing or conversion of recovered materials into industrial feedstock or the manufacture of products from those feedstocks.

Currently the maximum amount of financial assistance for any one project is \$50,000 or 75% of the total project cost. To request an application, please contact:
